EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Stuart Auvinen on 3/30/05.

The application has been amended as follows:

In The Claims

Claims 2-6 and 14-16 have been canceled.

Reasons For Above Changes

Claims 2-6 and 14-16 were withdrawn as being drawn to the nonelected specie, and there is no allowable generic or linking claim, so claims 2-6 and 14-16 have been cancel.

REASONS FOR ALLOWANCE

2. Claims 7-13 and 17-20 are allowed

Claim 7 is amended in an independent form including all the limitations of the base claim, so claim 7 is allowed for the same reason as indicated in the last office action, i.e., the prior art of record fails to disclose or suggest the first current source including a first mirror transistor, a first setting transistor and a first sensing transistor; and wherein the second current source including a second mirror transistor, a second setting transistor and a second sensing transistor with the recited connections and operations set forth therein.

Art Unit: 2816

Claims 8-13 are allowed because they depend on claim 7.

Claim 17 is allowed for the same reason as indicated in the last office action, i.e., the prior art of record fails to disclose or suggest a circuit including, in combination with other elements, first mirror transistor means, first current-source transistor means, first sensing transistor means, second mirror transistor means, second current-source transistor means, and second sensing transistor means with the recited connections and operations set forth therein.

Claims 18-20 are allowed because they depend on claim 17.
